

ConnectReseller SSL Plug-In Procedure.

To Install the ConnectReseller SSL Plug-In module into your WHMCS Panel kindly follow the below given steps:

1. Download the module file of “ConnectReseller SSL”.
2. Extract the file, which consist of “cr_ssl.zip” file and a document.
3. This “cr_ssl.zip” file needs to be uploaded in your WHMCS directory, under WHMCS_Directory/modules/servers/.
4. Once the zip file is uploaded, extract the cr_ssl.zip in the same folder.
5. In the zip file a cron folder is available, in which “cron.php” file is available which needs to be scheduled daily once.
6. Once this is completed, go to your WHMCS panel. There under product and services, user need to create 10 new products named as (Commercial SSL, Commercial Wildcard SSL, Trusted SSL & Trusted Wildcard SSL, Positive SSL DV, Positive SSL Wildcard DV, Sectigo SSL DV, Sectigo SSL Wildcard DV, Instant SSL OV, Instant SSL Wildcard OV), by selecting the module as “ConnectReseller SSL” and under any desired Product group.

Group Name: SSL Certificates					
1. Commercial SSL	Other (ConnectReseller SSL)	Recurring	-	Off	  
2. Trusted SSL	Other (ConnectReseller SSL)	Recurring	-	Off	  
3. Commercial Wildcard	Other (ConnectReseller SSL)	Free	-	Off	  
4. Trusted Wildcard	Other (ConnectReseller SSL)	One Time	-	Off	  

7. Upon creating these 10 products, under every products “Module Settings” tab user need to mention the following parameters.

- The 4 Products can be differentiated by the “Product Code” parameter as below:

1. Commercial SSL Product Code – 1
2. Trusted SSL Product Code – 2
3. Commercial Wildcard SSL Product Code – 3
4. Trusted Wildcard SSL Product Code – 4
5. Positive SSL DV – 5
6. Positive SSL Wildcard DV - 6
7. Sectigo SSL DV - 8
8. Sectigo SSL Wildcard DV - 9
9. Instant SSL OV - 10
10. Instant SSL Wildcard OV – 11

NOTE: Please Make Sure for Product Code 5 – 11, The Verification method should only be CNAME_CSR_HASH
